

Academic Recall Title Codes

Effective 7/1/14, Recall title codes will be selected based on the duties and union code of the recall appointment, regardless of the title the appointee held prior to retirement. In addition, specific title codes are no longer required for AY vs. FY, 9/9 vs. 9/12, BEE vs. Reg Ranks scales, or VERIP participants. Deans may use working titles in appointment letters (e.g. Research Professor).

Use **1700 Recall Teaching** for senate appointees whose recall duties are teaching only.

Use **1702 Recall Faculty** for senate appointees whose recall duties include non-teaching activities such as research or administration. They may or may not also have teaching duties.

Use **1699 Recall Teaching Non-Senate** for non-senate appointees whose recall duties include teaching. They may or may not also have non-teaching duties.

Use **3802 Recall Non-Faculty Acad** for non-senate appointees whose recall duties do not include any teaching.

This chart shows how existing recall appointees should be transitioned at the time of reappointment:
